

PROGRESSIVE FLEET

VENDOR REFERRAL NETWORK

National Truck Protection

With more than 35 years of experience, National Truck Protection (NTP) has more experience than any other company in the warranty business. They know how to combine technology, programming and data to develop products that create the most value for Class 8 and Class 3 – 7 vehicle owners.

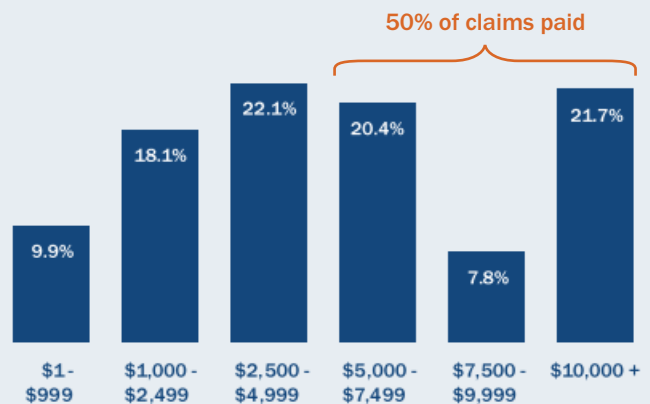

How it works

An aftermarket warranty takes the worry out of ownership. Major mechanical components are now covered including the engine, turbo, injectors, transmission and more. When parts fail, the owner won't be out-of-pocket for repairs.

This coverage is a vital business tool for managing the total cost of ownership of commercial heavy- and medium-duty trucks.

NTP warranties are transferable, creating additional value for an already expensive asset.

More than 1 in 5 claims had repair costs over \$10,000
